

RISK LEADERSHIP & MANAGEMENT SERVICES (RLM)

Risk management is the process of identifying, assessing and controlling threats to an organization's capital and earnings. These threats or risks could stem from a wide variety of sources, including financial uncertainty, legal liabilities, strategic management errors, accidents and natural disasters, physical presence and simply put - etc etc etc. Any broker can get quotes. If your broker is the pro, where are they at bringing their knowledge of risk, understanding of what causes accidents, and anticipation for the same? Where are they in leading the client to set an annual budget to address Risk leadership and thus influence premiums downward?

A KEY PART of "The Risk Journey"

Answer: Who is your broker? Who are they working for – you or the Insurer?
